EXPERIENCE

Teaching Factory
Telkom DBT

During my time at Teaching Factory Telkom DBT, I had the opportunity to work as a front-end programmer in a team and individually. This experience has allowed me to hone my skills in collaboration, communication, and problem-solving, as well as develop my technical proficiency in front-end development.

Creator virtual Tour
VRagio Tour

As a creator of virtual tours at VRagio, I have gained significant experience in utilizing cutting-edge technologies to develop interactive and engaging virtual tours. This role has allowed me to hone my skills in project management, creative problem-solving, and teamwork

LATEST PROJECT

Undefined News
https://undefinednewswebsite.vercel.app/

A website that displays news articles is built by a team using the Next.js programming language.

KonterAttack
https://konter-attack-reyhandiansa.vercel.app/

A website that sells mobile phones in a store is built using the Next.js programming language.
